David H. Tucker, M. D., Pref. of Theory and

Practice of Medicine.

Arthur E. Peticolas, M. D., Demonstrator o Anatomy.

The study of practical anatomy may be cuted with the most ample facilities, and at very

trifling expense.
Clinical lectures are regularly given at the college infirmary and Richmond almshouse. The infirmary, under the same roof with the college, and subject to the entire control of the faculty, is at all times well filled with medical and surgical cases, and furnishes peculiar facilities for clinical in-struction. Many surgical operations are performed in presence of the class; and the students, being freely admitted to the wards, enjoy, under the guidance of the professors, unusual epportunities for becoming familiar with the symptoms, diagnosis, and treatment of disease.

EXPENSES.—Matriculation fee, \$5. Professors' fees, \$100. Demonstrator's fee, \$10. Graduation

tee, \$25.

The price of board, including fuel, lights, and servants' attendance, is usually \$3 or \$3½ per week.

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we proserve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patron-

age, without interfering with the claims or rights of any now prosecuting the same great work. Although mainly deveted to the discussion of such political questions, as they arise, which affec the welfare of North Carolina, whether relating to the welfare of North Carolina, whether relating to the federal or State governments, or such local in-terests as may be of importance, it is nevertheless intended to make the Statesman a medium of ge-neral intelligence. Accordingly, the state of the markets in the principal cities, to which our com-merce goes, shall be fully and accurately reported; nor will the attention of the conductors be less ad-dressed to the subject of internal improvements, as a means indiscensible to the development of as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall al-ways command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of ex-

vancement of the interests of North Carolina. The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be st

portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to propriating the proceeds of their sales to the payment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall protest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercommenced. Ohio, and the Stages to Zanesville, &c.

This expeditious line being now thoroughly completed, by the late finishing of the Great Board Tree Tunnel, and the road being in excellent order, the earnest attention of travellers is confidently directed to its superior advantages and low fares. The scenery upon this road is of the most stupendous and attractive character.

The Express Mail Train leaves Baltimore daily at 7 P. M., and runs directly through to Wheeling (380 miles) in 18 or 19 hours, including all stoppages, arriving there at 2 or 3 P. M. next day; or, passengers leaving Baltimore at 8 A. M. may lay over for lodging in Cumberland, (179 miles,) and proceed thence to Wheeling in the morning.

At Wheeling the seven unrivalled Steamers of the Union Line, which have just been completed for this route, form a daily connexion with the cars, and convey passengers down the Ohio to Cincinnati and Louisville, where the Stages for Nashville, &c., or the St. Louis and New Orleans Packets, may be taken by those going further on.

Passengers for Columbus (or who prefer the land route to Cincinnati) and other parts of Chio and the West may also proceed direct from Wheeling in the Ohio Stage Company's excellent coaches over the best part of the National Road to Zanesville, &c., and thence by railroad. Passengers for Wellsville and Cleveland by steamboat and railroad will also find this a mo

PATENT GAS REGULATOR.—The in-ventor (Dr. Kidder) of this economical and useful instrument deserves the thanks of the gas-consuming community. The saving effected by the use of it will be found fully 25 per cent. in every person's gas bill. It can be so adjusted as to ery person's gas bill. It can be so adjusted as to supply the gas at any desired pressure less than that of the street, and when once adjusted, the Regulator will continue to supply the gas at that pressure uniformly, without requiring further care or attention, and independent of all the fluctuations of the street pressure. An additional advantage obtained by this Regulator is a light of a more agreeable quality, in place of the bluish white color of the ordinary gas light, occasioned by the high pressure at which the gas is consumed. As an evidence of its practical utility, it is now in op-

high pressure at which the gas is consumed. As an evidence of its practical utility, it is now in operation in some of the principal hotels and large stores in New York city, who all bear favorable testimony to its value. It has also received the united commendations of the press.

Hotel proprietors and storekeepers in the city of Washington and its vicinity, desirous to avail themselves of the economiser, can obtain all further information by calling on the subscriber, who ther information by calling on the subscriber, who has fitted one of these Regulators up in his store, and will give an illustration of it. AND THE PUBLIC.
AUDITOR'S OFFICE, POST OFFICE DEPARTMENT, November 1, 1853 THAS BEENLONG THE PRACTICE of this office to pay the drafts drawn and negotiated by contractors for carrying the United States mails, for the amounts, respectively, of their quarterly pay. It was established to accommodate the contractors, and meet their necessities, in advance of the regular and slower process of paying by the drafts or warrants of the department, and was intended only to apply to gas draft pay. and was intended only to apply to one dreft per route from each contractor for the whole amount, (deducting fines, collections, &c...) of his quarterly pay; but it has been, and is quite generally so misunderstood, as to be supposed to allow any number of drafts, and for any amount, not exceed-

changes of the country, with a quasi sanction of this office, a species of paper currency unauthor-ized by the laws. Any additional instruments furnished if desired. Orders may be left at his residence on 14th exposed to great and unnecessary risk in deter-

persons through whose hands these drafts are made to pass before their presentation. It is therefore deemed proper to give this public notice to contractors, and all concerned, that from and after the 1st day of January, 1554, but one draft for the pay upon each route per quarter will be payed, or filed for payment, in this office. This draft should state upon its face, that it is the only one for the quarter and the route (both to be specified) on which it is drawn; and the signature thereto should be attested by the postmaster at the place where it may be drawn, and one other witness; and each assignment thereof should be attested by two witnesses.
